May Monthly Report

Mayor's Moment – Weekly Blog Meetings

The Mayor and Public Engagement Personnel meet on a weekly basis to discuss topic ideas for the Mayor's Moment Video Blog. Activities include drafting, reviewing, and editing of blog scripts as well as recording and editing of the video blog.

Deliverable – General Website, App and Watson Updates

CGS team has been making updates to the website and app as requested by various city departments. These include posting info about programs, uploading documents, and creating digital forms.

Deliverable – Infographics and Flyers

CGS team has been creating various infographics, banners, and flyers as requested by various city departments.

IWCE Saving Lives Prep (May 1st)

Mohamed Abdelhameid and Anthony Coleman met with organizers of the IWCE Saving Lives conference to discuss Mayor's role in the conference. Topics discussed included logistics and content for Mayor's presentation.

Weekly Meetings with Robert St. Thomas (May 10th and 17th)

Mohamed Abdelhameid meets with Robert St. Thomas on a weekly basis to discuss several Seat Pleasant Smart City programs. Some of these programs include the Seat Pleasant Hypertension program and the Seat Pleasant Smart City transformation. In particular, they have been working on the Seat Pleasant Intelligent Nutrition Program which aims to bring food delivery services to Seat Pleasant as an interim solution to the food desert challenge.

International Collaboration Team Meeting with Amnick (May 2nd)

The CGS team met with John David of Amnick and multiple professionals, educators, and municipal staff from across the US and Europe. We discussed how the collaborative group can support one another moving forward, in particular, how we can commercialize our efforts so that all parties can benefit financially, as well as how to tackle issues such as the digital divide, and factors to consider when implementing a 5G solution.

VT Systems Meeting (May 3rd)

The CGS team met with VT Systems to discuss the City's goals and objectives for installing Informative Kiosks. We also discussed VT system's capabilities and potential options for innovative multi use street lights that also include attached kiosks. VT systems is set to visit the city in June for additional collaboration.

Mastercard City Possible Meeting (May 3rd)

The CGS team met with representatives of Mastercard's City Possible program and discussed how Seat Pleasant could become a participating member of the City Possible program.

District Heights, Greenbelt, Hyattsville, Port Towns and Forest Heights Meetings – Smart Cities Pilot Program Discussion (May 6th, May 9th, and May 10th)

The CGS team, SPICE, and Economic Development met with the representatives from Greenbelt, Hyattsville, District Heights, the Port Towns and Forest Heights to discuss the County wide Smart Cities pilot program. We discussed the benefits of Smart Cities, our goals for the county, and our ask for a support letter from the municipality.

Health and Human Services Grant – Info Call (May 8th)

The CGS team met and Ms. Rhoda joined a call with HHS in regard to an ACL grant aimed at using technology to improve live for persons living with disabilities.

Smart Cities Roundtable with Prince George's Community College (May 14th)

CGS team attended a roundtable discussion hosted by Prince George's Community College. The objective of this roundtable was to provide continued feedback on the College's Smart City Curriculum.

Marketplace.City (May 24th)

CGS team met with Andrew Watkins of Marketplace.City to discuss new capabilities and features.

Prince George's Association of Police Chiefs Meeting (May 28th)

CGS team supported the SPPD as they hosted the Prince George's Association of Police Chiefs meeting at the Seat Pleasant Activity Center. Support included preparation of a presentation for chief Devan Martin as well as installation of CGS software and tools on the Mobile Command Bus. The CGS team also manned the Mobile Command Bus and gave a demonstration to attendees of the event.

Priority 5 Meeting – Analytics Dashboard Discussion (May 30th)

CGS team met with representatives from Priority 5 to discuss development progress on the Analytics Dashboard. A beta version was released for our use and review. We also discussed

ways to ingest data to the system. We will continue to have dialogue over the next few weeks as this feature is finalized.

Quantum Capture Meeting – Virtual Mayor Avatar (May 30th)

CGS team met with representatives from Quantum Capture and IBM to discuss actions needed to prepare the Virtual Mayor Avatar for meeting with the County Executive. As a result, a new Watson workspace (independent of the Watson chatbot) was created that will power the avatar from this point forward.

IBM Meeting - Maximo Worker Insights Demo (May 31st)

CGS team met with representatives from IBM for a demo of the IBM IoT Platform's Worker Insights product. This tool will be used for the City's in home and health monitoring program. The demo showcased the features and capabilities as well as several health related IoT products that can be used by the city.

My Seat Pleasant App (May 7th, 14th and 31st)

CGS team continued meetings with the team of developers responsible for redevelopment of the app. Mohamed Abdelhameid continued to provide project management and oversight. These meetings included discussion of additional items to be corrected, and feedback received from Seat Pleasant staff.

Seat Pleasant Day

All staff participated in Seat Pleasant Day and assisted Mr. Pender with planning and execution of the event. Residents and those in the surrounding areas gave great feedback of the event and said that it has been the best one to date.

Tea with the Mayor

Ms. Henry assisted the Office of the Mayor with planning and coordination for Tea with the Mayor. It was a very successful event, and the women within the city thoroughly enjoyed themselves. Staff were able to dress up and attend the event as well.

Training

Mr. Pender and Ms. Henry both attended a training in Baltimore Maryland, Coaching and Mentoring Skills for Leadership Success. During this training they both learned how to deal with daily task, and how to be the leader and understand the different styles of management and learning.
